Product Control, Group Finance & Finance Change

Our 3-month Internship will introduce you to the corporate and financial world at a leading Swiss bank. During this Internship you will learn how to use basic tools, such as Excel, Outlook and PowerPoint, as well as developing your financial knowledge through our internal training courses.

You will be assigned a Credit Suisse buddy who will provide you with additional support prior to, during, and after your Internship. As well as undertaking an assigned desk specific project during your Internship, you will also work on a group project with other Interns; this will help you build upon your project management, team collaboration and presentation skills.
